EXPERIENCE

UI/UX Designer, Pixo

February 2020–March 2023

- Designed website and app interfaces for clients in higher education, agtech, and more
- Produced designs that respond to any device and meet web accessibility standards
- Created wireframes, process flows, and digital prototypes to communicate and test ideas
- Collaborated with a cross-disciplinary development team using an agile framework
- Partnered with content strategists and engineers to implement seamless user experiences
- Conducted interviews with stakeholders and users to uncover goals and pain points
- Designed and facilitated usability tests to gauge software effectiveness
- Estimated work and partnered with project managers to meet budget expectations
- Played integral role in rebranding Pixo and designing new marketing materials

Designer, Surface 51

June 2015–February 2020

- Designed print, digital, and web materials for new and existing brands
- Created sitemaps and wireframes for websites
- Created responsive website designs following web accessibility standards
- Front-end development
- Managed, scheduled, and art directed photo and video shoots
- Created and edited video and animations
- Created social media plans and graphics
- Presented work to clients
- Vendor coordination

Interactive Asset Design Intern, COUNTRY Financial

May 2013–December 2014

- Created digital graphics for web and social media use across multiple devices
- Worked with social media strategists, writers, UX, UI, and print designers

Production Assistant, Redbird Productions

August 2012–May 2013

- Set up cabling and cameras for game day productions for NCAA Division I intercollegiate games
- Operated replay, video server, character generator (overlays), and web streaming on game day

EDUCATION

Illinois State University
